

CONSENT FOR WELLNESS SCREENING

All Eyes Vision Care offers additional, more detailed screenings to complement our eye exams.

INSURANCE DOES NOT COVER WELLNESS SCREENINGS

ADDITIONAL FEES ARE DUE TODAY

1) **Digital Retinal Imaging:** This is a high definition picture of your retina, interior blood vessels and optic nerves. These images are vital in helping Dr. Sosebee evaluate your risks for serious ocular disease. The imaging also serves as a very important baseline, so every year your eyes can be compared to past images to monitor even the smallest of changes. **The imaging can sometimes eliminate the need for dilation. Cost: \$35.00**

2) **Wellness OCT:** This is a quick, non-invasive scan to see beneath the surface of your retinas. The OCT scans the eye like an MRI and offers an opportunity to detect signs of vision threatening disease decades earlier, when it is most treatable. **Cost: \$20.00**

_____ **Yes, I want Digital Retinal Imaging only. (\$35.00)**

_____ **Yes, I want Wellness OCT scan only. (\$20.00)**

_____ **Yes, I want both screenings at discount rate. (\$45.00)**

_____ **No, I do not want Digital imaging or OCT Scan.**
